

eLadder University

A UNITED STATES UNIVERSITY • TAUGHT WORLDWIDE

PROSPECTUS 2026

Study while you explore the world.

11 degrees • three levels • 100% online

Dr. Ayesha Ashiq

Founder & Chief Executive Officer

“Wherever your
journey begins, you
belong here.”

A university without borders.

It is my great pleasure to welcome you to eLadder University.

eLadder University is a 100% online university, connecting learners from around the world. Our vision is simple: to make meaningful education accessible to people wherever they are — across cities, countries, and continents.

At eLadder, we believe that every learner brings a unique story, a unique set of experiences, and a unique potential. Some students will join us directly after school. Others will come to us after years of professional experience. Some will be changing careers, while others will be pursuing an ambition they have carried for many years.

Our online learning environment allows students from different parts of the world to learn, connect, and share ideas with people they may never otherwise have had the opportunity to meet. In this way, education becomes not only a journey of individual growth, but also a way of bringing people and perspectives together.

We believe education should give students more than a qualification. It should help you develop confidence, think independently, discover your strengths, and gain the knowledge and skills to contribute meaningfully to your profession and community.

As you begin your journey with eLadder University, I encourage you to stay curious, embrace new ideas, learn from challenges, and make the most of every opportunity.

As Founder and CEO, I am proud to welcome you to the eLadder University community. Wherever you are in the world, you are now part of a growing community of learners connected by one shared purpose — to learn, to grow, and to create new possibilities for the future.

I hope your journey with eLadder University will be meaningful, rewarding, and full of opportunities.

Welcome to eLadder University. Wherever you are, your journey can begin here.

With warm regards,

Dr. Ayesha Ashiq

WHY ELADDER

Education that travels with you.

eLadder University is a United States university redefining higher education through experiential learning, global exposure and career-aligned academic pathways. We prepare learners for the future of work by blending academic study with real-world application.

11

DEGREE PROGRAMMES

3

DEGREE LEVELS

100%

ONLINE, FROM ANYWHERE

Bridging theory and practice

Closing the gap between academic knowledge and real-world application, so what you learn connects directly to the work you do.

Flexible and affordable

A research-backed education that fits your busy life: affordable, personalised and 100% online, on a schedule that works for you.

Globally competent graduates

Developing professionals with practical skills, cultural intelligence and leadership capability, ready to work across borders.

Opportunity by merit

Creating inclusive opportunity through scholarships and fellowships that reward potential, purpose and performance.

Empowering minds through purposeful education.

Our mission is to redefine higher education by making it globally accessible, career-driven and experience-rich. We empower learners to move beyond traditional academic boundaries by integrating real-time work exposure, travel-based learning and industry collaboration into formal education.

Study from where you live.

Wherever your journey begins — straight from school, mid-career or changing direction — you can study with us from anywhere in the world, on a schedule that fits the life you already have.

1 **Fully online**

Every programme is taught online. Keep your job, your home and your routine.

2 **Live and on your schedule**

Scheduled live sessions with faculty, and recorded material you can work through when your week allows.

3 **Support in your time zone**

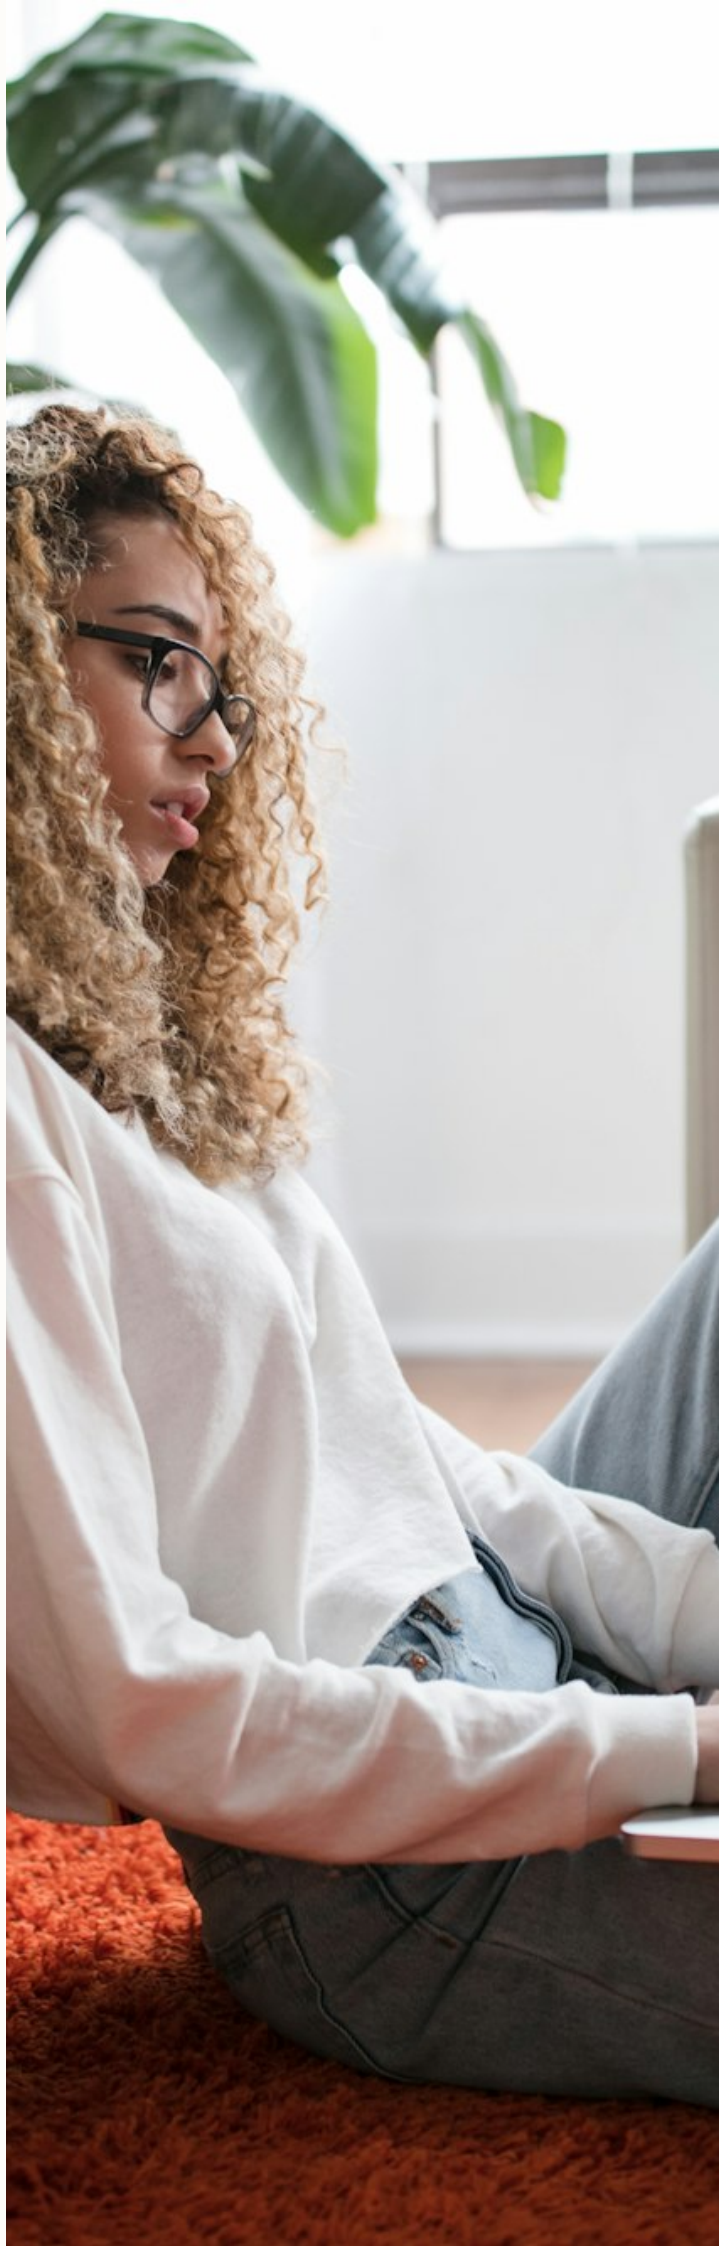

Academic advising, course tutors and technical help, with every deadline stated in its time zone.

4 **Built for working learners**

Enter at the level your qualifications reach, and carry eligible credit forward from earlier study.

5 **Apply and pay from anywhere**

No student visa is needed. Pay by card or bank transfer from your own country.

11 degrees, three levels.

In business, management, computing, English and language, and arts, history and international studies. Choose the level your qualifications reach, and climb from there.

Bachelor's degrees

The standard undergraduate degree, and the qualification most employers ask for: a broad grounding in your chosen field, studied online.

Bachelor of Business Administration

BUSINESS

Management across the whole of a business: finance, people, strategy and operations, and how a decision in one shows up in the others.

SPECIALIZATIONS

- Principles of Management and Organizational Behavior
- Financial and Managerial Accounting
- Business Economics and Market Analysis

Bachelor of Science in Information Systems

COMPUTING

The place technology meets the business that pays for it: systems analysis, data, and putting technology to work against a real objective.

SPECIALIZATIONS

- Information Systems Fundamentals
- Business Systems and Process Analysis
- Database Design and Management

Bachelor of Science in English

ENGLISH AND LANGUAGE

Language, literature and writing, with the analytical and communication work that goes with them.

SPECIALIZATIONS

- English Language Structure and Usage
- Academic and Professional Writing
- Literary Studies (Classical and Contemporary)

Bachelor of Science in Arts, History and International Studies

ARTS, HISTORY AND INTERNATIONAL STUDIES

Global history, international relations and the languages and economics that run through both, taken together rather than as separate subjects.

Master's degrees

A postgraduate degree, usually taken while working. It deepens expertise in your field and prepares you for senior and specialist roles. 36 credits: 34 course credits and a 2-credit internship.

Master of Business Administration

BUSINESS

General management at a senior level, taught through the decisions a business actually faces rather than through theory alone.

SPECIALIZATIONS

- Strategic Management and Business Leadership
- Financial Management and Corporate Finance
- Marketing Strategy and Consumer Behavior

Master of Information Systems

COMPUTING

The place technology meets the business that pays for it, at postgraduate level: systems strategy, data, and putting technology to work against a real objective.

Master of Science in Arts, History and International Studies

ARTS, HISTORY AND INTERNATIONAL STUDIES

The same ground at postgraduate level, taken further: research method, regional depth, and the argument behind a position rather than the summary of it.

Master of Science in English

ENGLISH AND LANGUAGE

Advanced study of language and literature, including the teaching of English to others.

SPECIALIZATIONS

- Advanced English Grammar and Linguistics
- Literary Studies and Critical Theory
- Modern and World Literature

Doctoral degrees

The terminal degree, built around independent research. You study a real problem in depth and contribute original work to your field.

Doctor of Business Administration

MANAGEMENT

A practitioner doctorate: original research aimed at a problem in practice rather than at the academic literature alone.

SPECIALIZATIONS

- Advanced Business Strategy and Organizational Leadership
- Applied Business Research Methods
- Corporate Governance and Ethics

Doctor of Supply Chain and Logistics Management

MANAGEMENT

Doctoral research into how goods, information and money actually move, and where those systems fail.

SPECIALIZATIONS

- Advanced Supply Chain Strategy and Design
- Global Logistics and Transportation Management
- Procurement, Sourcing, and Supplier Relationship Management

Doctor of Arts, History and International Studies

ARTS, HISTORY AND INTERNATIONAL STUDIES

Doctoral research across history and international affairs: an original question about how states, cultures and institutions shape one another, answered from primary evidence.

SPECIALIZATIONS

- Advanced Historiography and Historical Research Methods
- Theories of International Relations and Global Governance
- Comparative Regional Studies: Asia, Africa, Latin America and Europe

Joining eLadder.

We admit students throughout the year. Once accepted, you begin at the start of the next term.

1

Talk to admissions
An admissions officer checks your eligibility and helps you choose.

2

Apply online
Submit your application and documents electronically.

3

Enrol
Receive your decision in writing and sign your Enrollment Agreement.

WHAT YOU NEED	UNDERGRADUATE	MASTER'S	DOCTORAL
Application form	✓	✓	✓
Previous diploma or degree	High school diploma	Bachelor's degree	Master's degree
Statement of purpose	Recommended	Recommended	Recommended
Government photo ID	✓	✓	✓
